PROFILE

Senior Technical Program Manager with a strong software engineering background and extensive experience coordinating complex initiatives across distributed teams. Specialized in delivery execution, dependency management, technical risk mitigation, and cross-functional communication. Comfortable operating between engineering, product, and business stakeholders without relying on formal authority.

CORE SKILLS

Program & Delivery Management

- Technical program planning & execution
- Dependency and risk management
- Cross-team coordination
- Roadmap and milestone tracking
- Release & deployment orchestration

Stakeholder & Communication

- Business ↔ Engineering translation
- Executive and stakeholder reporting
- Requirements clarification
- Conflict mediation

Technical Context (for decision-making)

- Backend systems (.NET, APIs, SQL)
 - Cloud platforms (Azure)
 - CI/CD pipelines
 - Distributed systems & integrations
 - Legacy system modernization contexts
-

RELEVANT EXPERIENCE

Hitachi Energy — Barcelona, Spain

Technical Program Lead / Team Leader*Sep 2024 – Dec 2025*

- Coordinated delivery of a globally deployed manufacturing traceability system involving multiple integrations and stakeholders.
 - Planned and executed releases, hotfixes, and priority shifts based on user impact and operational risk.
 - Led recurring ceremonies (planning, refinement, retrospectives) and tracked action items to completion.
 - Acted as liaison between engineering teams, product, service, and business units.
 - Identified process gaps and proposed incremental improvements to increase predictability and transparency.
-

KopiusTech — Remote**Senior Engineer (Program Coordination Focus)***Apr 2023 – Aug 2024*

- Coordinated technical work across multiple teams contributing to a micro-frontend enterprise platform.
 - Helped identify requirement gaps early and mitigated delivery risks through documentation and alignment.
 - Ensured smooth transitions between deployment versions across parallel initiatives.
 - Supported onboarding and knowledge transfer to reduce delivery bottlenecks.
-

ThinkerSys — Argentina / Remote**Senior Software Developer (Program-scale Projects)***Jul 2018 – Jun 2021*

- Independently managed delivery of multiple concurrent projects for a large international NGO.
 - Coordinated integrations between internal systems and third-party platforms.
 - Gathered requirements directly from stakeholders and translated them into actionable plans.
 - Managed deployments and operational concerns across cloud and self-hosted environments.
-

Earlier Experience (Summary)

- **CloudX:** Multi-project coordination across rotating clients.
 - **Globant:** Team leadership in mobile initiatives.
 - **Accenture:** Scope item lead within large enterprise programs.
-

EDUCATION**Information Systems Engineering (coursework completed)**

Universidad Tecnológica Nacional — Argentina

Information Technology Professional Complejo Ed. Dr. Francisco de Gurruchaga - Argentina
